

Goshawks of Berlin 2026

Trip one: 5th – 8th March
Trip two: 10th – 13th March

Berlin is famous for many things, art, music and museums, but one of the most impressive sights are the urban **Goshawks**. Free from persecution the Goshawks (*der Habicht* in German) have become the top avian predator in the city and are relatively tolerant of people.

Our trip focuses on these amazing birds with an emphasis on an immersive experience; achieving great views, watching their behaviour and learning about their breeding cycle. We will also be on the look out for other birds and wildlife in the areas we visit such as **Red Squirrel**, **Hawfinch**, **Short-toed Treecreeper**, **Middle-spotted Woodpecker** and **Black Woodpecker**.

YCN Director Richard Baines has visited Berlin to watch Goshawks many times since 2018. To read two of his Berlin blogs and see his photos here: [CLICK HERE](#).
